

Part 1: Anchor Fact TimeLine

1. Use the diagram to help you provide the dates and/or names of the events or periods labelled:

Dates

- a) _____
- b) _____
- c) _____
- d) _____
- e) _____
- f) _____
- g) _____

Events

- 1584: _____
- 1823: _____
- 1947: _____
- 1787/9: _____
- 1964/5: _____
- 1993: _____
- 1865-77: _____

Periods

- 1776-1861: _____
- c.3000BC - c.1769: _____
- 1492-1776: _____
- 1949 - Today: _____

Bonus

- 1619x2: _____
- 1831-61: _____
- 476 AD: _____
- 1946: _____

Part 2: Pre- and Proto- Industrial Life

2. What does it mean to say human beings lived for 25 years *on average* in pre-industrial life? Why was life so short?

3. What is the importance of the Watt Steam Engine? What kinds of machines were built based on this device? (Give three examples).

4. Why is the date for the Watt Steam Engine given as “*c.1769*” rather than just “1769”?

Part 4: Advanced Industrial Food

8. When industrial technology such as the Haber Process to make fertilizer increased the amount of food that could be made, what happened to people that have lived on farms but didn't need to. What other technology was needed to ship the food to them from the farms without it spoiling?

9. Why is Norman Borlaug an important person in history? (Make sure to provide a sufficiently elaborate answer.)

10. What modern technology represents an *extension* of the Green Revolution, and how? What modern perspective on food represents a *rejection* of it, and how?
