

Part 1: Geography and World History

1. Pick five countries, label them with a letter on the map, and then write their names below:

- a) _____
- b) _____
- c) _____
- d) _____
- e) _____

2. On the provided timeline, label all the anchor facts and periods of African history (there are nine in all) and then add at least *eleven* more facts and periods for other cultures—for a total of twenty points.

Part 2: African History

3. What makes Sub-Saharan Africa a cultural block?

4. What is post-colonialism? What about Africa’s early culture contributes to it? What about its modern history is also key?

Part 3: European Domination

5. How far back does history show the presence of slavery in Africa? What story illustrates its presence long before European influence? When did it finally begin to recede?

6. Why did the *Scramble for Africa* occur, and what is its significance for African history?

Part 4: Independence and Post-Colonial Africa

7. What is “detrribalization”? Why doesn’t any part of Africa have a German identity instead of its prior tribal identity?

8. What is the idea of the “Year of Africa”? What has been the pattern of African history since then?

Part 5: South Africa

9. Who are the Afrikaners? How did their interactions with the British shape the rise of modern South Africa?

10. Why is 1994 such an important year in the history of South Africa, and of Africa in general? Why did it take so long for South Africa to reach the milestone involved, and how was it finally achieved?
