

Part 1: Geography and World History

1. Pick five countries, label them with a letter on the map, and then write their names below:

- a) _____
- b) _____
- c) _____
- d) _____
- e) _____

2. On the provided timeline, label all the anchor facts and periods of African history (there are nine in all) and then add at least *eleven* more facts and periods for other cultures—for a total of twenty points.

Part 2: African History

3. What does the original African culture have in common with Hindu Culture? What do they have in common today?

4. What factors allow us to study the history of Sub-Saharan Africa as a block, despite its size and complexity?

Part 3: European Domination

5. Why did the discovery of the Americas lead to the depopulation of Africa?

6. Why did slavery continue so long into human history? How did it finally begin to recede?

7. Why did the *Scramble for Africa* occur, and what is its significance for African history?

Part 4: Independence and Post-Colonial Africa

8. What is “detrribalization”? How did WWI affect this process in many parts of Africa?

9. How did the French and British forms of imperialism differ? Give an example of the success and failure of the British approach?

Part 5: South Africa

10. How does the story of the colonization of South Africa differ from the rest of Sub-Saharan Africa?

11. In what sense can we say that South Africa was both the first *and* last country in Sub-Saharan Africa to be decolonized?
