Part 1: Facts Practice

1. In the top half of the page draw a timeline of Western Civilization with colors to symbolize the different branches of that culture, tick-marks to highlight the most important events, and labels for the essence of each culture today. Below the diagram, give a brief account of what happened when it comes to each fact indicated, and why each one still matters *today*. (In other words, make sure you don't just write what and when, but also *what for!*)
